

*Lime Photo
Wedding Packages*

All the packages mentioned below are inclusive of at a minimum, one meeting or extensive correspondence between myself and the couple. This is so that I make sure the style of the imagery that I capture is the style that you want. This is also to discuss the wedding day itself and make sure that the photographs don't get in the way of the actual ceremony or the festivities. Usually there are two people working: either myself and an assistant, or a second photographer (my wife, who is also a published photographer). All the packages include photography prior to the wedding, the ceremony, and the reception (within reason – if your guests want to continue their festivities past midnight there isn't a guarantee that we will stay on, unless you specifically

request it and in which case we will adjust the wedding package). If at all possible, and it usually is, photographs will include pictures of the venue before the ceremony. Packages 2 and 3 also include a second photographic shoot (within 50km of Durban) after the wedding where you can play out your fantasies of wedding images that are simply not possible on the wedding day itself (for example wading through surf with the wedding dress, or shooting a scene on the opposite side of town to the actual wedding venue...again beaches are popular). I now also offer along with all the packages a dedicated password protected webpage for three months so that your friends and family can view the photographs and from which you can choose the images you would like printed.

Package 1. – R7000 *(not available if wedding requires extensive travel beyond Durban)*

This is a cost conscious package for couples who prefer to create their own album rather than have the photographer create one for them. This package provides for a photographer and assistant who will cover the whole wedding from preparation through to and including the reception. Included are 2 DVDs with 150 images of the wedding ceremony, formal pictures and the reception.

+R800 for the second photography shoot.

Package 2 – R9500

Package 2 is essentially the same as package 1 but has the advantage of having a second photographer. This is an important consideration that many couples overlook. Two photographers means that there is always a photographer with the bride and with the groom. This ensures that every moment is captured for the couple and also allows for natural photographs that often cannot be captured by a man photographing a bride or a woman photographing the groom.

Included with the DVDs and the webpage are 50 jumbo prints, 25 'A5' prints and 10 'A4' prints (all of your choosing)

Package 3 – R11000

This package again has two photographers covering the wedding and includes 100 Jumbo prints, of your selection, 25 15x22cm prints and 5 20x30cm prints (just smaller than A4). Two DVDs are included with roughly 180-250 images (depending on the size of the actual wedding – we often include more photographs) in sized folders. A small 30 page 20x20cm mini album is included. This album looks something like a small coffee table book which is printed on high quality glossy paper.

Additional:

+R1500 a high quality stitched leatherette 30x30cm 30 page photo album. This looks a lot like the glossy coffee table books that one buys in book shops (more pages can be added at the printing stage so that you can even have an 80 page album)

+R3200 a high quality stitched leatherette 30x30cm 30 page photo album printed on matt photographic paper welded to archival photo board (roughly 1.5mm thick). This is a beautiful presentation of the wedding and certainly something that will last generations. A smaller 20x20cm 30 page album is an additional R1900.

Thank you for enquiring with Lime Photo. For any more details please don't hesitate to contact me via my email (emil@limephoto.co.za) or telephone me directly on 084 584 9959
